

overestimate of respondents to the information collection. If all 615 U.S. producers and all 3,641 importers introduced new children's sleepwear garments each year, the total number of respondents to the information collection would be 4,256 (615 + 3,641). As noted above, the actual number of respondents is likely lower.

**Estimated Time per Response:** PRA burden associated with testing and recordkeeping of each sleepwear item is approximately three hours.

**Total Estimated Annual Burden:** The 50 largest domestic manufacturers and the 100 largest importers may each introduce an average of 100 new children's sleepwear items annually. The annual burden for the 50 large domestic manufacturers and the 100 largest importers is estimated at 45,000 hours for PRA burden associated with testing and recordkeeping (150 firms  $\times$  100 items  $\times$  3 hours). Without adjusting for possible double-counting, CPSC staff estimates that the remaining 565 manufacturers and 3,541 importers may each introduce an average of 10 new children's sleepwear items, for a total burden of 123,180 hours (4,106  $\times$  10 items  $\times$  3 hours.) Therefore, the total estimated potential annual burden imposed by the standard and regulations on all manufacturers and importers of children's sleepwear will be about 168,180 hours (45,000 + 123,180).

**Total Estimated Annual Cost to Respondents:** Using compensation data available from the U.S. Bureau of Labor Statistics, "Employer Costs for Employee Compensation," December 2024, Table 4, total compensation for management, professional, and related workers in goods-producing private industries, <http://www.bls.gov/ncs>, the annual cost to the industry is estimated to be \$12,748,044 based on an hourly wage of \$75.80  $\times$  168,180 hours.

**Request for Comments:**

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- whether the estimated burden of the proposed collection of information is accurate;
- whether the quality, utility, and clarity of the information to be collected could be enhanced; and

- whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

## DEPARTMENT OF DEFENSE

### Department of the Air Force

#### Notice of Intent To Prepare an Environmental Impact Statement for Optimization of the Powder River Training Complex

**AGENCY:** Department of the Air Force, Department of Defense.

**ACTION:** Notice of intent.

**SUMMARY:** The Department of the Air Force (DAF) is issuing this Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS) to assess the potential social, economic, and environmental impacts associated with optimization of the Powder River Training Complex (PRTC) (Unique Identification Number EISX-007-57-UAF-1729171028). The EIS will analyze the potential impacts from improvements to the airspace structure at PRTC to address shortfalls in day-to-day training for aircrews from Ellsworth Air Force Base (AFB) and Minot AFB and increasing Large Force Exercise (LFE) capability at PRTC to meet threats to National Security. The Federal Aviation Administration (FAA) is participating as a cooperating agency.

**DATES:** A public scoping period will run through September 9, 2025. Comments will be accepted at any time during the environmental impact analysis process; however, to ensure DAF has sufficient time to consider public scoping comments during preparation of the Draft EIS, please submit comments within the defined scoping period. A schedule is provided on the project website ([www.PRTCairspaceEIS.com](http://www.PRTCairspaceEIS.com)) and will be updated as the project progresses.

DAF invites the public, stakeholders, and other interested parties to attend a public scoping meeting. Scoping meetings will be held on the following dates, times, and locations:

- July 28, 2025, 5:00 p.m.–7:00 p.m., Hardin, MT
- July 29, 2025, 5:00 p.m.–7:00 p.m., Ashland, MT

- July 30, 2025, 5:00 p.m.–7:00 p.m., Baker, MT
- July 31, 2025, 5:00 p.m.–7:00 p.m., Bowman, ND
- August 1, 2025, 5:00 p.m.–7:00 p.m., Elgin, ND
- August 11, 2025, 5:00 p.m.–7:00 p.m., Spearfish, SD
- August 12, 2025, 5:00 p.m.–7:00 p.m., Bison, SD
- August 13, 2025, 5:00 p.m.–7:00 p.m., Sundance, WY
- August 14, 2025, 5:00 p.m.–7:00 p.m., Rapid City, SD
- August 19, 2025, 5:00 p.m.–6:00 p.m., Virtual Meeting #1
- August 20, 2025, 5:00 p.m.–6:00 p.m., Virtual Meeting #2
- August 21, 2025, 5:00 p.m.–6:00 p.m., Virtual Meeting #3

All meeting times are in mountain time. For information on the virtual scoping meetings and to view meeting materials please see the project website ([www.PRTCairspaceEIS.com](http://www.PRTCairspaceEIS.com)).

**ADDRESSES:** The addresses for the in-person public scoping meetings listed in the **DATES** section will be published in local newspapers and on the project website a minimum of 15 days prior to the meetings. Written scoping comments can be submitted at an in-person scoping meeting, via the project website ([www.PRTCairspaceEIS.com](http://www.PRTCairspaceEIS.com)), or via postal mail to Attn. PRTC Airspace EIS, 501 Butler Farm Rd., Suite H, Hampton, VA 23666.

**FOR FURTHER INFORMATION CONTACT:** For inquiries regarding accommodations under the Americans with Disability Act, please contact Grace Keesling, NEPA Project Manager at [AFCEC.CIE.airspace.workflow@us.af.mil](mailto:AFCEC.CIE.airspace.workflow@us.af.mil), or by phone at 1-380-458-2617.

**SUPPLEMENTARY INFORMATION:** The purpose of the Proposed Action is to facilitate training that ensures combat effectiveness and aircrew survivability. The Proposed Action is needed because the current PRTC does not allow aircrews to complete required high altitude day-to-day and LFE training, and because current limitations on LFEs prevent realistic training that ensures mission readiness and aircrew survivability.

DAF is considering two alternatives to implement the Proposed Action and the No Action Alternative.

For Alternative 1, the ceiling of two of the primary airspace segments used for day-to-day training (named Powder River 2 and Gateway West Air Traffic Control Assigned Airspaces [ATCAAs]) would be raised to 60,000 feet from the current 26,000 feet, improving the high-altitude training capability. This

alternative also includes an administrative change to the published times of use to align with how the complex is currently used for day-to-day training. Under Alternative 1, the ceiling of all the PRTC airspace would be raised to 60,000 feet during LFEs and increase the LFE days from 10 days total per year to a total of 30 days per year. Increasing the duration and frequency of LFEs would increase the total sorties conducted within PRTC by 50 percent for a total of 4,974.

For Alternative 2, the ceiling of Powder River 2, Gateway West, and Gateway East ATCAAs would be raised to 60,000 feet from the current 26,000 feet for day-to-day training. Currently Gateway East ATCAA is only available for LFEs. Under this alternative, Gateway East ATCAA would now be available for day-to-day training and the lateral dimensions of the Gateway West ATCAA would be reduced. Other changes would be the same as Alternative 1 and include an administrative change to the published times of use for day-to-day training, raising the ceiling of the entire complex to 60,000 feet during LFEs and increasing the LFE days to a total of 30 days per year.

For the No Action Alternative, DAF would not implement changes to the airspace structure or increase the total LFE days. Use of the PRTC for day-to-day training and LFEs would continue as it does currently.

The DAF and Cooperating Agencies will determine the scope of the analysis by soliciting comments from interested local, state, and federally elected officials and agencies, federally recognized Native American tribes, as well as interested members of the public. Comments are requested on identification of potential alternatives, information, and analyses relevant to the Proposed Action.

### Office of the Secretary

[Docket ID: DoD-2024-OS-0132]

### Submission for OMB Review; Comment Request

**AGENCY:** Office of the Under Secretary of Defense for Intelligence and Security (OUSD(I&S)), Department of Defense (DoD).

**ACTION:** 30-Day information collection notice.

**SUMMARY:** The DoD has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

**DATES:** Consideration will be given to all comments received by August 11, 2025.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

*Title; Associated Form; and OMB Number:* National Industrial Security Program Contracts Classification System; DD Form 254; OMB Control Number 0704-0567.

*Type of Request:* Extension.

*Number of Respondents:* 8,800.

*Responses per Respondent:* 6.

*Annual Responses:* 52,800.

*Average Burden per Response:* 36 minutes.

*Annual Burden Hours:* 31,680.

*Needs and Uses:* Pursuant to 48 CFR 27, in conjunction with subpart 4.4 of the Federal Acquisition Regulation, contracting officers shall determine whether access to classified information may be required by a contractor during contract performance. DoD Components shall use the DD Form 254, "Contract Security Classification Specification," as an attachment to contracts or agreements requiring access to classified information by U.S. contractors. The DD Form 254 is used to identify the classified areas of information involved in a contract and the specific items of information that require protection. The National Industrial Security Program Contract Classification System (NCCS) is the electronic repository for the DD Form 254. NCCS expedites the processing and distribution of contract classification specifications for contracts requiring access to classified information. NCCS also has a built-in automated process for the Request for Approval to Subcontract and provides workflow support for the Facility Clearance Request and National Interest Determination processes.
